## Profile

Dedicated and analytical IT Professional with over 3 years of experience in maintaining high availability, mission-critical systems and ensuring 24/7 service reliability. Proven background in rapid incident management, and complex issue resolution--skills directly transferable to optimizing and troubleshooting network infrastructure.

## Experience

**SOFTWARE ENGINEER | HCLTECH | SEP 2022 - PRESENT**

**Client: ANZ**

**Project Name: RNR Application Support**

### Project Description:

Support for banking and financial applications, ensuring smooth operation of online and batch processes, timely incident resolution, and compliance with SLA standards. Focused on minimizing downtime and providing continuous operational support for high-volume client systems.

### Responsibilities

- . Provide 24/7 application support for mission-critical banking applications under the ANZ project.
- . Monitor application performance and service health using tools such as ServiceNow, ITRS (Active Console), CCRE, MARRS, ARM, Asset control.
- . Investigate, troubleshoot, and resolve application and job-level incidents, ensuring minimal downtime.
- . Perform root cause analysis (RCA) and coordinate with L3/development teams for permanent fixes.
- . Handle incident, problem, and change management processes as per ITIL standards.
- . Support release and deployment activities, performing pre/post-deployment validations.
- . Analyzed application logs, performed data validation using SQL queries, and ensured data consistency across systems.
- . Prepare daily, weekly, and monthly operational reports and communicate key insights to management.
- . Participate in shift rotations (24/7 support) to ensure continuous availability of client systems.

## Technical Skills

- . Monitoring & Ticketing tools: ServiceNow, ITRS Geneos Active Console
- . Scripting & Querying: SQL, Linux/Unix commands
- . Database(RDBMS): SQL Server
- . Other Skills: Incident Management, Problem & Change Management, ITIL

## Education

**BACHELOR OF TECHNOLOGY - COMPUTER SCIENCE & ENGINEERING**

Siddharth Institute of Engineering & Technology (AUTONOMOUS) | 2022 | 8.06 CGPA

## Accomplishments

- . Ensured SLA compliance for production incidents and batch process.
- . Provided consistent support for application stability and timely issue resolution.
- . Collaborated effectively with cross-functional teams during releases. Proactively monitored system health checks.
- . Successfully contributed to maintaining stable and efficient production operations throughout the project.
